

GB Compliance Limited

Modern Slavery Policy

This statement is made pursuant to s.54 of the Modern Slavery Act 2015 and sets out the steps that GB Compliance Limited has taken and is continuing to take to ensure that modern slavery or human trafficking is not taking place within our business or supply chain.

Modern slavery encompasses slavery, servitude, human trafficking and forced labour. GB Compliance Limited has a zero-tolerance approach to any form of modern slavery. We are committed to acting ethically and with integrity and transparency in all business dealings and to putting effective systems and controls in place to safeguard against any form of modern slavery taking place within the business or our supply chain.

Our business

GB Compliance Limited currently operates throughout the UK in the fire safety and fire protection sectors and currently does not have any international operations. We currently use a number of UK based suppliers for the provision of products and materials relating to non electrical emergency lighting.

Our high risk areas

We do not consider there to be any areas of high risk relating to our business and modern slavery due to the fact that we only operate in the UK and the fact that all of our suppliers are UK based companies. However, we do nevertheless still consider the risk of modern slavery in relation to our product and material supply from these suppliers.

Our policies

We operate a number of internal policies to ensure that we are conducting business in an ethical and transparent manner. These include:

1. Modern Slavery policy. This policy sets out the organisation's stance on modern slavery and explains how employees can identify any instances of this and where they can go for help.
2. Recruitment policy. We operate a robust recruitment policy, including conducting eligibility to work in the UK checks for all employees to safeguard against human trafficking or individuals being forced to work against their will.
3. Whistleblowing policy. We operate a whistleblowing policy so that all employees know that they can raise concerns about how colleagues are being treated, or practices within our business or supply chain, without fear of reprisals.

4. Code of business conduct. This code explains the manner in which we behave as an organisation and how we expect our employees and suppliers to act.

Our suppliers

GB Compliance Limited operates a supplier policy and maintains a preferred supplier list. We conduct due diligence on all suppliers before allowing them to become a preferred supplier. This due diligence includes an online search to ensure that any particular organisation has never been convicted of offences relating to modern slavery. Our anti-slavery policy forms part of our contract with all suppliers and they are required to confirm that no part of their business operations contradicts this policy.

In addition to the above, as part of our contract with suppliers, we require that they confirm to us that:

1. They have taken steps to eradicate modern slavery within their business
2. They hold their own suppliers to account over modern slavery
3. They pay their employees at least the national minimum wage / national living wage (as appropriate)
4. We may terminate the contract at any time should any instances of modern slavery come to light

Training

We regularly carry out training and reviews relating to modern slavery and conduct training for our buyers so that they understand the signs of modern slavery and what to do if they suspect that it is taking place within our supply chain.

Our performance indicators

We will know the effectiveness of the steps that we are taking to ensure that slavery and/or human trafficking is not taking place within our business or supply chain if:

- No reports are received from employees, the public, or law enforcement agencies to indicate that modern slavery practices have been identified.]
